CHAMPAGNE

LOUIS ROEDERER

Since its founding in 1776, the House of Champagne Louis Roederer has been "in pursuit of the ultimate" and is synonymous with the world's great Champagnes. The largest percentage of vineyard ownership of any major Champagne house.

BOLLINGER

Founded in 1829, Champagne Bollinger is one of the few remaining family-owned champagne houses. The house has enjoyed a close association with Britain since 1858 and prides itself on having held a Royal Warrant continuously since first awarded by Queen Victoria in 1884..

RUPPERT- LEROY (Biodynamic)

Bénédicte Leroy's parents were originally sheep farmers settling in Essoyes in 1975. In 2009, when her father was about to retire, Bénédicte left her job as a physical education teacher to take over the domaine. They apply the principles of biodynamics in both the vineyard and the cellar.

BENOÎT LAHAYE (Biodynamic)

Since taking over his family's domaine in 1993, he has moved the viticulture from being pesticide-free to certified organic and then to biodynamic certification. This is far from an easy transition, as Champagne's extreme northern climate can make biodynamic viticulture very difficult.
